PLUMBING PERMIT INSPECTION SERVICE INFORMATION SHEET

A permit in the plumbing discipline is required to install, alter or add to a plumbing system.

Please be aware that when you purchase a permit you are only getting an inspection done to the minimum required levels in the Quality Management Plan.

To be an informed buyer, it is critical that you know what inspection(s) you get and if you would like to have more inspections on your project, this can be easily arranged at the time of your permit application.

Plumbing Permit Inspection Service Information

Type of Install / Permit	Inspections Required Under QMP	Stage of Inspection
Contractor permit for non residential / multi-family residential installation with 10 fixtures or less	1	Rough-in below grade OR Rough-in above grade OR Final (Within 180 days of issuance)
